Steel Repair Solutions. Half Sole. Girth Weld Sleeves.

PIPELINE REPAIR SOLUTIONS

REPAIR SLEEVES FOR THE OIL AND GAS INDUSTRY

HALF SOLE, GIRTH WELD, AND PUMPKIN STYLE SLEEVES.

WAGNER PLATE WORKS has been manufacturing pipeline repair sleeves for decades. Whatever your needs, we have a repair solution, including Half Soles, Girth Weld Sleeves, and Pumpkin Style Sleeves.

All of our sleeves are manufactured from quality, carbon steel materials, all of which are up to ASTM/ASME specifications. We have a quality control program that ensures full MTR traceability on all products all the time.

We are the behind scenes Fabricator that has more experience manufacturing these parts than anyone in the USA.

OUR PRODUCTS INCLUDE

STEEL REPAIR SLEEVES:

These are specially designed and manufactured for steel reinforcement of gas or liquid pipelines. This includes the repair or replacement of clamps and accessories, with or without leaks, cracks, dents, illegal taps, or other integrity defects.

- Half Sole Repair Sleeves (Style 15)
- Pumpkin Repair Sleeves (Style 20)
- Girth Welded Sleeves (Style 10)
- Welded Sleeves (Style 10)
